

Claim Amendments

We claim:

1. (CURRENTLY AMENDED): ~~A method of applying special recorded waveform data~~ An apparatus of inducing energies of simulated alpha rhythm human brain waveforms, comprising:

- (a) means for releasing an electromagnetic energy, an interfered static magnetic energy, a sub-audio acoustic energy and a mechanical vibrational energy, and
~~average frequencies at a range of 8 Hz to 14 Hz;~~
~~frequencies at a peak of 11 Hz to 12 Hz;~~
~~amplitude changing in high or low accordingly;~~
 - (b) simulated alpha rhythm human brain waveforms with an average frequency range of 8-14 Hz, with changing of an amplitude in high or low accordingly, and with changing of the frequencies and the amplitudes changing at non-stationary random order in
[[the]] a duration of [[the]] a motion event.

2. (CANCELED)

3. (CURRENTLY AMENDED): ~~An electrical system~~ The apparatus according to claim [[2]] 1, wherein an integrated circuit is programmed logically and intelligently.
4. (CURRENTLY AMENDED): ~~An electrical system~~ The apparatus according to claim [[2]] 1, wherein an integrated circuit generates oscillatory digital signals or currents.
5. (CANCELED)
6. (CURRENTLY AMENDED): ~~An electrical system~~ The apparatus according to claim [[2]] 1, wherein a circuit controls [[the]] said signals or current amplitudes.
7. (CURRENTLY AMENDED): ~~An electrical system~~ The apparatus according to claim [[2]] 1, wherein a circuit filters [[the]] said signals.
8. (CURRENTLY AMENDED): ~~An electrical system~~ The apparatus according to claim [[2]] 1, wherein an integrated circuit amplifies [[the]] said filtered signals.
9. (CANCELED)
10. (CANCELED)

11. (CANCELED)

12. (CURRENTLY AMENDED): The apparatus according to claim 1, further comprising [[A]] a transducer is built, according to claims 1 and 2, containing means for transforming said signals into said electromagnetic energy, interfered static magnetic energy, sub-audio acoustic energy and mechanical vibrational energy.

13. (CURRENTLY AMENDED): [[A]] The transducer according to claim [[11]] 12, wherein there is a conductor is centered inside said transducer that is small in size and light in weight for moving easily.

14. (CURRENTLY AMENDED): [[A]] The transducer according to claim [[11]] 12, wherein there is a static magnet is positioned under said conductor for moving said conductor, with north (N) pole free pointing to the human body and south (S) pole mounted to [[the]] a casing.

15. (CURRENTLY AMENDED): [[A]] The transducer according to claim [[11]] 12, wherein said magnet's north (N) pole for transmitting said energies is not blocked by any means.

16. (CURRENTLY AMENDED): ~~[[An]]~~ The apparatus according to claims 1, 2 and

~~11, induces alpha rhythm for treatment of men's prostate problems; whereby~~
men's prostate problems can be treated with said energies of simulated alpha
rhythm human brain waveforms.

17. (CURRENTLY AMENDED): ~~[[An]]~~ The apparatus according to claims 1, 2 and

~~11, induces alpha rhythm for treatment of sleep disorders; whereby sleep~~
disorders can be treated with said energies of simulated alpha rhythm human brain
waveforms.
